ACSS**

Summary

This Working Paper addresses the response to Action Item 25-10. ACSS agrees with the proposal in 1090-WP25-04R1 to replace the Single Antenna Flag with NIC Supplement in the Airborne Position Message.

**Response to Action Item 25-10 – Proposed Swapping of the NIC Supplement
with Single Antenna Flag**

ACSS agrees to replacing the Single Antenna Flag with NIC Supplement in the Airborne Position message.

ACSS agrees to relocating the Single Antenna Flag to a previously reserved bit in the Operational Status message. ADS-B IN applications do not require this flag so relocating or deleting it should cause no problem.
