Subject: ASSAP Telecon July 27, 2-4 pm EST

<<ASSAS Strawman Functional Architecture_July27.zap>>

All,
There will be one presentation on the agenda for Thursday, July 27 telecon from 2-4 pm EST. I will present the attached strawman Functional Architecture for ASSAP . This includes rationale and traceability to the ASA MASPS requirements and will likely take the full two hours with discussion. Responses to the other action items indicated that they were not ready for presentation and discussion and will be addressed at our August meeting.

It is important that we develop a common view of the functional architecture, so your participation is highly recommended.

We will conduct the meeting via (1) MS Live Meeting (for visual) thanks to Ruy Brandao from Honeywell and (2) telecon . The information to log into each system is provided below.

Regards,
Roxaneh

PS Please save the attachment on your desktop and change the extension from .zap to .zip.
