

**SC-186 WG4, ASSAP Subgroup  
Telecon, May 2, 2007, Meeting #14  
Notes**

**Attendees:**

Larry Bachman	JHU-APL
Lewis Baily	Boeing
Alan Branch	FAA
Bob Burns	Engility Corp/FAA Tech Center
Michael Callahan	Mitre
Robert Eftekari	Mitre
Gary Furr	Engility Corp/FAA Tech Center
Jonathan Hammer	Mitre
Dean Miller	Boeing
Chris Moody	Mitre
Steve Plummer	FAA
Steve Ramdeen	FAA
Sethu Rathinam	Rockwell Collins
Dave Thomas	Engility Corp/FAA Tech Center
Don Walker	Honeywell

**Writing Assignment Status:**

Section 1	Chris Moody Draft soon to be distributed prior to May meeting.
Section 1.5	Operational Goals recommended to be deleted.
Section 1.6	Capture assumptions as they arise reviewing the material.
Section 1.8	Definition of Terms, Michael Callahan has a draft based on ASA MASPS
Section 2.1.1 – 2.1.8	Boilerplate Complete? Text exists in current draft of MOPS. Needs to be reviewed.
Section 2.1.9	This section to be deleted.
Section 2.2.1	No status update from APL (Larry Bachman/Randy Sleight) Jonathon to call Larry.
Section 2.2.2.1	Tom Eich not available to give status.
Section 2.2.2.2	Robert Eftekari and Michael Callahan have draft material for the May meeting.
Section 2.2.2.3.2	EVAcq Application has existing material.
Section 2.2.2.3.2	CD Application has material for review.
Monitoring (BITE)	Chris Moody has draft text for this section. May need to be moved to another section of the document.
Environmental Test	Don W has not started on this text yet. Will make an attempt for May meeting.

**Actions:**

Jonathan would like everyone to send draft material to him by Friday May 4th. He will have his staff work on incorporating that material into a document. The plan is to disseminate the compiled material early next week.

**Agenda for May Meeting:**

Review Draft Material

ACSS Presentation of ARINC 735B Material

Discuss Test Requirements Strategy

    TIS Tracker Presentation – Chris Moody

Flight Test Data Collection Status

Present Action Item Resolutions (Dean Miller, others)

Present TCAS to TIS-B/ADS-B Correlation Algorithm - Robert Eftekari

**Actions:**

Chris Moody to extract TIS tracker test section to present at the May meeting.

Jonathan will try to track down some expertise on testing Tracking Algorithms. Ideally they could present something at the May meeting.

Don takes action to find out if own ship position info is time stamped consistent with TCAS track data clock.

**Flight Test Preparation Status:**

Honeywell and ACSS are working to support a summer flight test, currently scheduled for the week of 23 July, for data collection purposes. Both companies have identified an issue of synchronizing their internal time stamps to UTC.
